BRITAIN TO ENLAND KAISER GIVE UP NAVY

DOUBLE UP
ON LOAN!
DELAY AIDS
ENEMY!

Unconditional Surrender of every available American dollar was demanded today upon receipt of the niggardly total of \$14,018,000 for the eleventh day of New England's Liberty Loan campaign.

Today's total was a full million dollars less than yesterday's sorry showing throughout New England. With the lowest full day's total so far reported during the campaign came the announcement from Washington that only a little more than a third of the \$20,000,000,000 total had been subscribed in more than half of the time fixed for raising the big loan. New England's total to date stands at \$14,018,000 or slightly less than half of New England's quota of \$28,036,000.

As much again must be raised in the remaining eight working days of the campaign as has resulted from the effort put forth in the past eleven days. Today's total is less than half of the \$23,312,666 daily average required to put New England over the top by October 15, when the drive ceases.

A crumb of comfort accompanying the announcement of today's total was contained in the fact that the figure represented but 533 out of the 534 banks from which the daily totals are computed.

EXPECT RUSH TOMORROW. "Liberty Day," tomorrow, is expected to result in such a total of new subscriptions that the local Continued on Page 4, Column 1.

105,000 CAPTURED BY ALLIES IN PAST WEEK. Paris, Oct. 11.—During the past week the allies have captured more than 105,000 prisoners. It was estimated today. Their total captures since July 15 now amount to more than 500,000. [BOSTON HERALD EXTRA]

Japanese Minister
Lauds Work of U. S.
Navy in Far East

By International News Service. Washington, Oct. 11.—The American and Japanese naval forces at Vladivostok have been able to cooperate in perfect harmony and friendship since they arrived there last March, the Japanese minister of marine has informed Secretary Daniels in an official communication the Navy Department made public this afternoon.

The Japanese minister paid high tribute to Admiral Knight, the commander of the American naval forces at the Siberian port, to whose many kindnesses and courtesies he gave full credit for the good feeling prevailing between the Japanese and Americans there.

The success that the Japanese and Americans have met in dealing with the difficult situation there has been largely due, the Japanese minister added, to the sailors' unfailing friendliness and tact.

PEACE RUMORS. By Agency Radio to the International News Service. Rome, Oct. 11.—A state of peace has been proclaimed at Constantinople and a dispatch to the Liberal Nationalists today.

Zurich, Oct. 11.—Vienna and Budapest newspapers interpret the ministerial changes at Constantinople as preparation to surrender. It is reported that Turkey will give a guarantee of her good faith by opening the Dardanelles.

London, Oct. 11.—Germany's reply to President Wilson's peace note will consent to the evacuation of France and Belgium after the peace conference starts in some neutral city, providing the allies do not demand German territory in Alsace-Lorraine nor insist upon the German evacuation of Russia and Rumania, according to the German newspaper, according to the German newspaper, according to the German newspaper, according to the German newspaper.

WOMEN IN
U-BOAT
TOLL

Hundreds of Lives Taken by the Kaiser's Sea Vipers.

Three steamers, American, British and Japanese, with 1,300 persons aboard, have been sunk by German submarines. It is estimated 1,180 persons were lost with the three vessels.

The American steamship Ticonderoga, formerly the German steamer Camilla Rickmers, sunk 1,700 miles off the Atlantic coast of the United States. Only twenty of those aboard escaped, those who survived the sinking dying by shelling.

The British mail steamer Leinster, torpedoed between Dublin and Holyhead, is estimated 800 went down with her.

The Japanese steamship Hiranuma sank 300 miles south of the Irish coast. Thirty persons rescued. The dead estimated at 200, including women and children.

Survivors of the Ticonderoga, reaching an American port aboard a British freighter, say the Germans destroyed with almost all but one lifeboat, and tried to destroy this and the score of survivors by suddenly submerging while the painter of the lifeboat was fastened to the U-boat. Seventeen of the survivors were mothers, detailing an incident.

The Japanese steamer Hiranuma had a number of women and children aboard. The American destroyer directly heard the explosion which destroyed the Hiranuma and hastened to the scene. The destroyer picked up thirty persons, one of whom died on reaching shore.

While the story was reaching the women and children, the German submarine fired two torpedoes at the British freighter, but neither found a mark. After completing the work of wreck, the destroyer picked up the bodies of several women and dropping depth bombs.

There were a number of prominent Englishmen on the Leinster, but no Americans so far as can be learned. Among those aboard was Judge Francis Osborne of the High Court of the Irish, who was saved. Lady Alexander, Duchess of Abercorn, is among those missing.

Two torpedoes were fired at the Leinster. Scores of persons were picked up by the water by a fleet of fifteen destroyers and later which hurried from Kingston to the coast. Many of these died before reaching shore. It is estimated that not more than 150 of the 720 persons aboard were rescued, and that the condition of some of these is such that their recovery is doubtful.

ALIEN ENEMY WHO FAILS TO WIGGLER LOCKED UP. Harry Wigglers, thirty-eight, an alien enemy, was brought from Sweden today by Federal officers and locked up, charged with failing to register as an enemy alien last February. The local Federal authorities are puzzled to learn from Washington and in the meantime Wigglers is locked up.

French Patrols Reach Important German Base in the Argonne

London, Oct. 11.—(1 p. m.)—French patrols have entered Grand Pre in the Argonne forest sector, where Americans are on the offensive. Grand Pre is between nine and ten miles north of the old German front in the Argonne area and lies on the Aire River. It is a town of considerable strategic importance, owing to the highways which converge there. It is on the railway line running through Vouziers.

By NEWTON C. PARKE. International News Service Staff Correspondent.

With the American Army Northwest of Verdun, Oct. 11 (Nov. 1).—Fighting developed this morning north of the Krimmler line, near Romagne, following a violent bombardment of this sector throughout the night. Elsewhere the sector was quiet. We now firmly hold the south bank of the Aire.

French Patrols Reach Important German Base in the Argonne

London, Oct. 11.—(1 p. m.)—French patrols have entered Grand Pre in the Argonne forest sector, where Americans are on the offensive. Grand Pre is between nine and ten miles north of the old German front in the Argonne area and lies on the Aire River. It is a town of considerable strategic importance, owing to the highways which converge there. It is on the railway line running through Vouziers.

By NEWTON C. PARKE. International News Service Staff Correspondent.

With the American Army Northwest of Verdun, Oct. 11 (Nov. 1).—Fighting developed this morning north of the Krimmler line, near Romagne, following a violent bombardment of this sector throughout the night. Elsewhere the sector was quiet. We now firmly hold the south bank of the Aire.

West of the Meuse River the French are encountering stubborn opposition. Our guns have been heavily pounding since, making it useless to the Germans. It has now become a part of No Man's Land.

DOUBT TROOPS IN MEUSE. American airmen dropped more than three tons of bombs on Fromont, Mouilly and Villers.

American troops that attacked in the Argonne forest yesterday, breaking down the last elements of German resistance in that region, are reported to have captured Marigny and Grand Pre.

WOMEN AT WORK IN SUBMARINE PLANT. Newark, N. J., Oct. 11.—Women, and in all-outlook overall, have made their appearance in the machine shops of the submarine plant.

Dr. Henry Stowess, industrial consultant of the concern, announced that an experiment with women in the shops had proved successful and that they will be employed hereafter to replace men called in the draft.

TODAY'S BANK STATEMENT. Boston bank clearings, \$51,037,000. Boston sub-treasury receipts, \$91,400,000. New York bank clearings, \$50,400,000. New York sub-treasury receipts, \$80,000,000. PROSPECTOR FROM GERM. COLUMBIAN, Oct. 11.—(1 p. m.)—A German prospector from the Argonne forest sector, who had been captured by French troops, is being held in a prison in the Argonne forest sector.

Germans Fleeing in
Disorder, Leaving
Guns and Stores

London, Oct. 11.—The German retreat to the east and northeast of Cambrai is rapidly approaching the stage of rout, according to dispatches reaching here this afternoon. Everywhere along the St. Hilaire-Le Cateau sector the enemy forces are fleeing precipitately, abandoning guns and supplies.

By International News Service. London, Oct. 11 (1 p. m.)—The situation on the Western battlefield is expected to take a decisive turn soon, it was learned here this afternoon. The British are now well in the rear of the German right flank resting on the Hindenburg line.

The Germans must evacuate St. Gobain immediately and likewise straighten out the Douai salient.

Already the Germans have begun to retire from that portion of the Chemin des Dames that they still hold.

North of the Scarpe the British are approaching the Drocourt-Quant sectors in a converging attack. The Oise River barrier is considered insufficient to protect the German positions at Laon.

The French and American troops in the Argonne sector have joined hands, closing the Grand Pre gap.

By FRANK CHARLTON. International News Service Staff Editor. American and British troops that rolled forward fifteen miles through the hole in the Hindenburg line near Cambrai have passed the German base at Le Cateau and are driving in the general direction of Mormal forest, Landreies, Le Nouvion and Wasigny. The allied victory is growing in magnitude hourly.

OVER 1,900,000
U. S. TROOPS
OVERSEA

By International News Service. Washington, Oct. 11.—The American troop movement overseas has passed the Lighthouse mark. In making this announcement today General P. C. March, chief of staff, took occasion to demand that the American people make good the military program by "going over the top" with the Liberty Loan.

As a result of the present military operation the allied armies today are only fourteen miles from the very important Brussels railway junction. Continued on Page 4, Column 2.

CHAOS IN
GERMAN
COUNCILS

Schism Between Parties Over Peace Proposal Means Storm in Crown Session

London, Oct. 11.—Great Britain will demand the surrender of the entire German navy, and full indemnity for all shipping losses due to U-boat warfare, says the Evening Standard, which has often acted as spokesman for the British government.

The newspaper says it learns that Germany must turn over every war vessel under her flag to the allies as the price of peace.

In referring to the German navy, the Standard declares that Great Britain will insist that they belong to the world governing conference of Australia and the Pacific.

Crown Council to Have Stormy Time Over Terms of Peace

By International News Service. Amsterdam, Oct. 11.—The Kaiser has announced a decree which will be held in Berlin tomorrow, preparatory to accepting President Wilson's note. It was announced in Cologne today.

The Kaiser took the unprecedented step of leaving all the sovereigns of all German states to attend the conference. It was reported that Germany might attempt to evade President Wilson's intervention to whether the Kaiser was speaking the voice of Germany when he made this peace offer.

Washington, Oct. 11.—That anti-ship with Germany was extremely chaotic was indicated in all of the dispatches reaching the State Department today.

Central authorities report that the break between the post-German and the Liberals is complete. This is believed to preclude a very abrupt meeting of the crown council when it convenes to consider the reply to President Wilson's note.

It also means that eventually, when Continued on Page 2, Column 4.

BRAZILIAN SHIP SINKS U-BOAT

An Atlantic Port, Oct. 11.—Officers of a Brazilian freight steamer which arrived here today reported that they sunk a German submarine by gunfire sixty miles east of Highland Light yesterday morning. The U-boat was sent down by the second shot fired by the Brazilian. The Brazilian ship was a German vessel that had been interned by the Brazilian government, then seized, armed and sent out for merchant service.

Announcement by Anheuser-Busch Missouri's Largest Industrial Institution

President Wilson, as a necessary conservation measure, has issued a Proclamation prohibiting the manufacture of cereal beverages on and after Dec. 1, 1918, which Proclamation also makes it necessary to discontinue the manufacture of Bevo—the Anheuser-Busch soft drink.

As a patriotic duty we accept without reservation the conditions of the President's Proclamation and on and after Dec. 1 our manufacturing plants will be closed—and they will remain closed until such time as we may be permitted to reopen them with the full sanction of the Government, or until we convert them for the manufacture of materials required by the Government in the prosecution of the war.

The Government's conservation program makes it necessary to suspend the beverage business of the Anheuser-Busch plants. We consider it a privilege to co-operate with the Government in making its war program effective, and to comply with every request and suggestion of the Government to the end that German armies may be more quickly defeated and German autocracy overthrown—to the end that an enduring peace may be established that will insure justice and protection to all nations and all peoples and make future wars impossible.

We stand squarely behind the Government in the prosecution of the war to a victorious conclusion. We regard the sacrifices we are making, amounting to many millions of dollars, as insignificant and inconsequential when we think of the benefits that will accrue to the world under the terms of the unselfish and altruistic war aims of the United States as defined by our President.

The Anheuser-Busch Brewing Association is pre-eminently the foremost and largest institution of its character in the world. It has plants covering more than 75 city blocks in St. Louis, and branch houses in many other cities and foreign countries. The business of Anheuser-Busch was world-wide. Its highly efficient executive and sales organization, as far as war conditions will permit, will be retained intact; and after the war for Democracy shall have been won, we shall be engaged again in useful industry.

The Anheuser-Busch plants are equivalent to a city in themselves. They represent an invested capital of \$60,000,000. There are many modern manufacturing units in the group of plants—one, the new Bevo bottling and shipping plant, with equipment, costing approximately \$10,000,000, and being the best industrial plant of any character in the world.

Anheuser-Busch pays annually more than \$3,000,000 in Federal, State and Municipal taxes.

Anheuser-Busch employs at good wages from 6,000 to 7,500 persons.

Anheuser-Busch industries support nearly a score of other useful industries of considerable magnitude.

During the period that Anheuser-Busch is out of active business, we shall take all necessary steps to protect the good name of this institution, which always has stood for 100 per cent integrity and 100 per cent efficiency. In the excitement of war false reports and statements are cir-

culated with reckless disregard for truth. Anheuser-Busch has been the victim, unfortunately, of many such false reports.

In this connection we consider it opportune to so clearly define the attitude of this institution and its officers that there can be no further excuse for misrepresentation.

As an American institution, founded by Americans more than 60 years ago, and continuously owned and operated by Americans, Anheuser-Busch has unmistakably expressed its Americanism by subscribing to more than \$3,000,000 of Liberty Bonds and the contribution of \$500,000 to the American Red Cross and other war relief organizations of the United States and the allied cause.

Every employe of Anheuser-Busch—more than 6,000 in number—is a subscriber to Liberty Bonds and a contributor to the Red Cross and other war charities.

As a further contribution toward winning the war, August A. Busch, president of Anheuser-Busch, upon America's entry into the conflict, voluntarily canceled all commercial contracts of the Busch-Sulzer Bros. Diesel Engine Co., of which he is president, and since that time the entire facilities of this \$3,500,000 plant have been exclusively devoted to the manufacture of engines for the submarines of the United States Navy. The engines manufactured by this plant are conceded to be the finest and most perfect made anywhere in the world.

Mr. Busch also has arranged to lease to the Government for the period of the war one-third of the 26 acres of floor space of the new \$10,000,000 Bevo plant.

The manufacturing facilities of the \$60,000,000 Anheuser-Busch plant, in part or entirety, have been tendered to the United States until the end of the war.

Over-enthusiastic agitators and envious competitors have attempted to prejudice the public against Anheuser-Busch on account of the purchase in October, 1915—when this country was neutral—of some German Government bonds by August A. Busch and for the account of his mother, Mrs. Adolphus Busch.

The truth is that these bonds were purchased 18 months before the United States declared war on Germany, and at a time when there was no thought that this country would become involved in the war.

The German bonds were sold by the principal banks, trust companies and bond houses of the United States

and widely advertised in newspapers, and sold with the full knowledge of the Government. Many financial institutions, and thousands of loyal citizens, still own these bonds.

The bonds were sold by the same institutions that sold French, English, Italian and other war bonds. They were sold at 84 cents on the dollar, and recommended by financiers as good investments, paying a return of nearly 7 per cent.

Some professional agitators have undertaken to make it appear that Mr. Busch bought the German bonds to aid Germany in making war on the United States. When these bonds were sold it was publicly announced that the funds were to be used to establish commercial credits for Germany in this country—credits such as the allied countries enjoyed through the sale of their bonds.

The fact that this transaction was in October, 1915, and that the United States did not declare war on Germany until April, 1917, should set at rest the ridiculous charges circulated principally by paid agitators reflecting on the loyalty of Anheuser-Busch.

Anheuser-Busch was founded upon the solid rock of Americanism and grew to be a great institution under the protection of American democracy. The late Adolphus Busch, for many years its president, laid the foundations of the character of Anheuser-Busch so broad and deep that this institution always has represented in the industrial world vastly more than a beverage industry. The name of Anheuser-Busch has been associated with, and will continue to be associated with, great industries in various fields of manufacture, finance, railroading, mining, hotel building and operation, etc.

The intensely loyal organization, created by Adolphus Busch, and strengthened under succeeding management, always will be found fighting to uphold American ideals of government and American principles of fair play.

Anheuser-Busch is ready to sacrifice everything except loyalty to country, and its own honor, to serve the Government in bringing this war to a victorious conclusion.

We wish to express our gratitude to our dealers and the thousands of loyal friends whose co-operation and support have been an invaluable asset to this institution. We assure them that after the war Anheuser-Busch again will take its place among the important and indispensable industrial institutions of America.

Anheuser-Busch, St. Louis, U. S. A.
